Wine Description

Like the Terminal moraine of a glacier this wine is the team at Gran Moraine's maximum advancement toward the pinnacle of quality that the amazingly generous 2015 vintage had to offer.

Winery Information

Taking its name from the glacier movements in the last ice age which caused the 2,000 yearlong Missoula Floods in the Willamette Valley, the vineyards of Gran Moraine span 230 acres in the Yamhill-Carlton AVA. From these vineyards, winemaker Shane Moore produces small amounts of Pinot noir and Chardonnay resulting in a collection of wines that showcase Gran Moraine's unwavering attention to detail in both the vineyard and the winery. Our wines are a true expression of the vintage, the Yamhill-Carlton AVA, and the culture of Oregon's northern Willamette Valley.
